COMPANY REGISTRATION

No: 7604164

In the current financial climate we know how vital it is to manage costs and make best use of the resources available. This is where Rail Operational Development Ltd (RODL) can be of assistance.

We have a readily available team of fully qualified trainers who can deliver and develop training courses.

Whether it is a course you currently have or one you would like to have developed we can provide the resources on an as required basis.

The benefits of using RODL trainers are:

- Total flexibility.
- You only pay when you need training delivered
- No additional costs i.e. sickness, holiday payments

Currently we can offer trainers to deliver the following training courses:

- Operational rules and regulations (driving, shunting and train working);
- Personal Track Safety
- Dangerous Goods
- Safe loading of trains
- Train dispatch
- Traction Training or conversion courses including class, 08, 66, 92, 390, 220, 221
- Engineers driving in non Network Rail infrastructure
- Train Operators Liaison Officer;
- Accident and incident Investigation;

We can either

- Delivery your courses, or;
- Deliver a training course produced by RODL that align to your company's specific needs
- All RODL training courses come with supporting training needs & task analysis evidence

In addition to this:

- RODL can produce the necessary competence management system that underpins this training

Competence and qualifications of RODL trainers

- All trainers are qualified to a nationally recognised training standard
- All possess the necessary vocational and occupation competences
- All are part of an on-going competence management system
