## How?

By us providing you with competent trainers **only** when you require them.

## What are the benefits of using our trainers?

- Significant reduction in operational overheads by only paying when you need a training resource;
- Total flexibility at very competitive rates;
- No additional costs attached i.e. sickness, holiday payments;
- Ability to respond to high training demand;
- Easy & immediate arrangements to cover sickness, annual leave or vacancies.

## As an example we can offer trainers to deliver:

- Operational rules and regulations associated with the safe working of trains;
- Basic traction training or conversion;
- Engineers driving in maintenance depots;
- Management and supervisory training (i.e. TOLO, SIO, A&I Investigator, supervisory skills, man management skills, shift fatigue management and operational safety procedures);
- GSM-R Cab Radio training;

**We can also produce the necessary competence management system that underpins this training.**

## Competence and qualifications of trainers and assessors

- All trainers and assessors are qualified to a nationally recognised standard;
- All possess the necessary vocational and occupation competences;
- All are part of an on-going competence management system.
